Health Data Exchange

Agendas	Action items	Note
Sub project of DCData	<ul style="list-style-type: none"><li>• Explore the Google Lens (Google Vision API)</li><li>• Our goal is to extract the metadata from bibliography image and create sources in Zotero</li><li>• We will develop a link with PATTIE (Need to discuss further)</li><li>• Create another database using same schema of dcddata.info</li></ul>	<ul style="list-style-type: none"><li>• Sample book - The Digital Humanities and literacy studies</li></ul>
dcddata.info	<ul style="list-style-type: none"><li>• Goal is to improve findability on dataset</li><li>• We are not going to scan the dataset structure (for now), our goal is to improve the findability (metadata is necessary to improve the findability), not accessibility (for now)</li></ul>	<ul style="list-style-type: none"><li>• Findability – Does it exist, where does it exist?</li><li>• Both Scatter Gather and dcddata.info should focus on findability – for now</li></ul>
