

LAIRHUB – Lab Meeting

December 13, 2024

Participants: Nibras, Paris, Zijun, Aravind, Dviya, Sunny

Action Items

Project	Project Associate	Updates / Action Items	Resource/ Notes
	Nibras	<ul style="list-style-type: none">● Wellbeing and thriving<ul style="list-style-type: none">○ Add additional data analysis○ Finish up the questions for Karim before next meeting● Finish up the syllabus for reading course	
	Paris	<ul style="list-style-type: none">● Upload all documents (Zotero) to wellbeing and thriving from information addiction● Edit the project description of the project page● Edit member section of the project page for Wellbeing and thriving● Upon Prof. Mostafa's instruction, collect phone numbers of wellbeing and thriving team members	
	Aravind	<ul style="list-style-type: none">● Can we develop a partnership with Vector institute?● Finish up the selection process of cluster using eyegaze● Incorporate the calibration within showme.news	Last submission date - March 3, 2025

		<ul style="list-style-type: none"> ● Training the eyegaze - make it stable ● Add feedback form in showme.news ● Add help section <ul style="list-style-type: none"> ○ One video of using the website ○ One written instruction ● We are aiming paper for neuroips & SEASON 2025 conference 	
	Divya	<ul style="list-style-type: none"> ● We are aiming to wrap up the papers for ICHI 2025 (Poster or short paper) 	Last submission date - Jan 07th, 2025
	Zijun	<ul style="list-style-type: none"> ● Analyze why Gemini taking more time to generate keywords ● K-means clustering <ul style="list-style-type: none"> ○ How can we precompute the clusters and compare cluster quality (both for NLTK and GEMINI) ● Optimize the result generation given a query term ● Compute the analysis of following <ul style="list-style-type: none"> ○ Real time ○ Seed time ○ Precompute time ○ Network time
